Prologue

The 1962 CLAN presents

an act in the play of life . . .

–your years at McLean High School

–the parts which you played

–the people you worked with

and had fun with . . .

McLean was the stage

–the students the players

–the teachers–directors.

Each person had a part . . .

some had many.

We, of the CLAN,

now take you

through a re-enactment of this play

The stage is set . . .

The curtain rises . . .

The play begins.

As the curtain falls on our last year at McLean, we are able to look back and appreciate more fully everything McLean has had to offer us. We enjoyed fun and excitement as we gave the "Cool as a Mule—Spring Fever Weaver Dance," satisfaction when we led the school in the Charity Drive, and sorrow as we watched our team leave the field after the last football game. These past four years we have grown, learned from experiences, and matured. These are years we shall always remember and cherish as we go on in life.

Freshman Class Officers

Left to right: Mr. Rutherford. Robert Henninger, President: Marcy Edwards. Vice President: Mariellen Steece. Secretary; Barbie Howard. Treasurer: Mrs. Marshall.

Our year as freshmen at McLean has been a happy and rewarding one. We are proud of our enthusiasm in school activities which we demonstrated when the Freshmen took a close second in the Charity Drive. Getting a late start, we have organized the class for the year and for those years to come. As we look back on this past year at McLean, we sincerely hope that our Freshman experiences will lead us to better years ahead.

Varsity Football

Coach Yost's 1961 Varsity Football Team compiled a winning record of 6-3-1. During most of the season, the Highlanders were in the midst of the Northern Virginia Group 1-A championship fight, highlighted by the Annandale game in which the two giants battled to a 7-7 tie. From the moment the whistle blew to open the season against Groveton, until the same whistle ended the Madison game at McLean, it was a team that provided suspense and thrills, joys and disappointments, color and spirit for the supporters of McLean.

Junior Varsity Football

The Junior Highlanders, coached by Mr. Pence and Mr. Harless, captured the Fairfax County Championship for the second consecutive year. The team suffered their first defeat in the past two years at the hands of Yorktown. This year marked the first time a McLean football team has been victorious over the Generals of Washington Lee with 20-12. The season ended with a 28-0 romp over Annandale to clinch the county title. At the end of the J.V. season, Rob Faris and Clint Propes were moved up to the Varsity team, where they gained valuable experience.

Freshman Football

Coached by Mr. Hutton, the freshman football team compiled a 3-2-1 record. This year was the first encounter with high school football for these boys, and they worked hard to make a winning team out of a largely inexperienced group. The boys played hard, and they gained experience invaluable to them in future years of football.

Varsity Basketball

For the third straight year under Coach Harless, the varsity had a winning season, with a tally of ten wins and nine losses. The team leader and captain was Bob Smith, whose playmaking and spirit were invaluable. David Bayne set a school record for rebounding, and the shooting of Terry Grefe and David Sollenberger was among the best in the league. Backing up these boys were John Bayne, Bobby Burrows, and Jim Galke, whose play proved extremely beneficial to the team.

Although the won-loss record is not the best, the eagers weren't lacking in spirit, and their determination proved as valuable to themselves and the school as would any amount of points. With this year's strong J.V. squad, and the returning trio of Bayne, Stollenberger and Grefe, the promise of future cage excellence looks good.

Junior Varsity Basketball

Coached by Mr. Miller, this year's junior varsity had a 13-6 record. The junior Highlanders were led to many victories by Captain Sharky Showalter, who had a scoring average of 21 points per game. The all-around play of Steve Luxford and Steve Johnson provided great punch in many games, and McLean came from behind in numerous games to gain a victory. This team displayed outstanding spirit, and will provide fine material for the Varsity in succeeding years.

Freshman Basketball

This year the freshman basketball team was coached by Mr. Abell and compiled a 7-3 record. The team had a 51.3 scoring average per game, and the leading scorer was Clint Propst with an average 12.5 per game. Other leading scorers were Larry Smith and Steve Bryan. The boys on the freshman team learned much about basketball and good sportsmanship, which will help them in future years of play.

Varsity Wrestling

Coach Dolan congratulates Bill Compton and Dicky Rickbeil, who went to the state meet.

This year the Varsity Wrestling Team had a record of 1-10. Although the squad won only one match, it produced two of the best wrestlers in the state: Dicky Rickbeil and Bill Compton. Both of these boys placed in the Northern Virginia Wrestling Tournament, and went to the State Wrestling Meet in Norview, Va. In this meet, Dicky defeated 3 of his 4 opponents to become the second place winner in his weight division.

Junior Varsity Wrestling

What belongs to whom?

Although McLean had a junior varsity wrestling team last year, this is the first year the squad has participated in interscholastic wrestling. The team was coached by Mr. Tom Dolan, to make a winning squad out of a largely inexperienced group of boys. The team won two matches, while losing two, and all the boys gained valuable experience.

*Sten and Yuki
Our Foreign Exchange Students*

Yuki Mizote — Japan

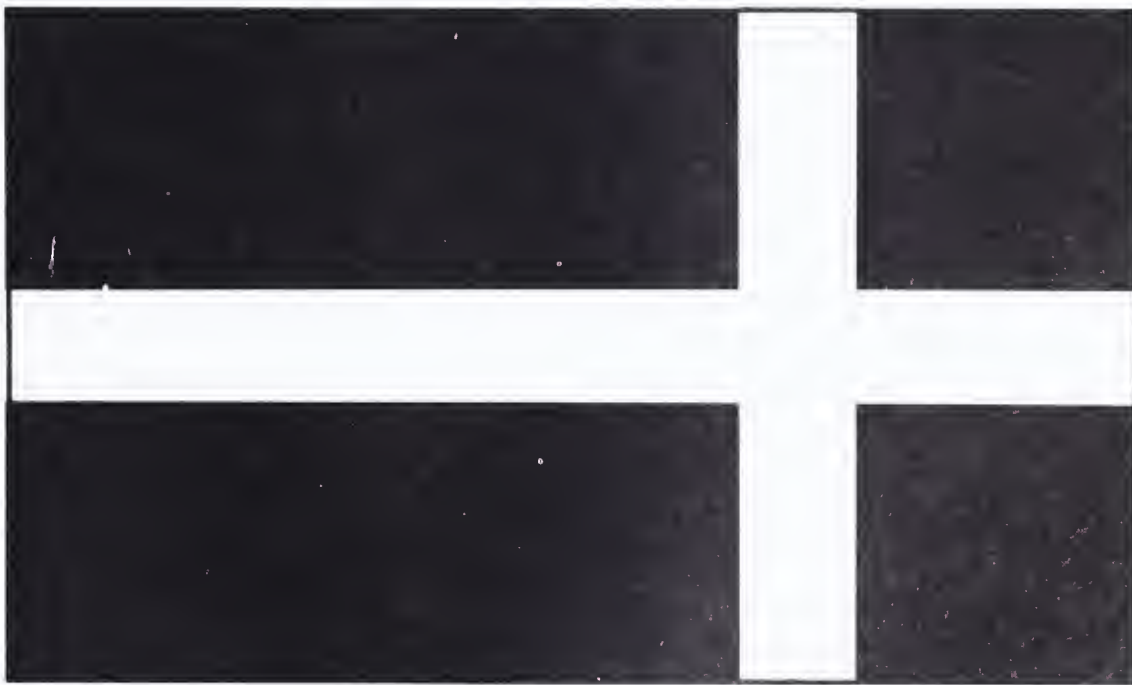

I can hardly believe my one-year McLean life is going to be over real soon . . . and I have no idea of leaving my Kendall family, all the teachers and students, and other people whom I love and thank.

It is quite hard for me to tell in a few words how much I've enjoyed my new experiences, but I'll try—Cheering at the exciting football games (Hurrah Highlanders!), selling the Beat Signs, I really have been patriotic to M.H.S. I learned a lot in the A.C. classes and the field trips . . . sure. A.C. is a hard course, but it's fun, too. In A Cappella we worked on "Call Me Madam" and I was amazed at our real talented actors and actresses as well as our *terrific* chorus.

Unforgettable concerts at the Constitution Hall where I got some famous musicians' signatures. A.F.S. parties and assemblies where I got to know lots of A.F.S. students from various countries—these memories can never leave my mind.

From American history and politics to the TWIST . . . everything I learned here will remain one of the most precious parts of my life. Thank you very much for your cooperation and kindness having made me spend such a fabulous time. Hope to see some of you in Japan.

Sincerely,
Yuki

Sten Poulsen — Denmark

Another year passed. But to me it has had more memories than any other year. So many things were new to me. The country. The language. The people. I got used to it all.

The first schoolday. Running around from class to class. New teachers. Lockers which did not open. The first time I dropped a subject. The football games. How anybody could hardly talk after the game at Lee. The dances. The basketball games. American Christmas. New Year's Eve.

All that and much more will stay fresh in my mind for many years.

Eight months have gone and they went too fast. The remaining three months will go even more rapidly. Too bad!

"How do you like America?" "I like it." That is all there is to say. I have learned a lot. About the United States, its people, and myself—believe it or not! Who am I to thank for such a wonderful year? The Hazeltons. A.F.S., and every person at McLean High.

Sincerely,
Sten

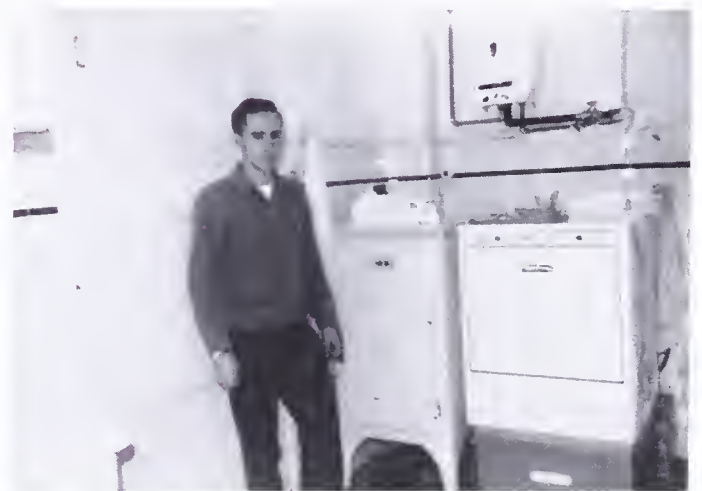

Richard Henninger
Our A. F. S. Student to Berlin

My AFS experience was unlike the average. My adjustments to a foreign family and a foreign life were not as jolting as many have encountered, because West-Berlin is probably the most American city on the other side of the ocean. The people are no longer typical Germans because now they live outside of Germany; the city is new and rebuilt; and the life is a gentle mixture of Germany and the West.

The family life had to be similar to my American way of living because the short time of four months could not be spent making adjustments of this type. The problem of Berlin was in the realization of our divided world. I wish I could convey this feeling I received of unjustness, of bewilderment, of helpless anger, and of the cruelty created by this split city. One could not help wondering why families had to be split, why men had to have power over other men or why this patch of ground was free while the other was inaccessible and controlled. The answers to these questions should be with the people.

Student Co-Operative Association

The Student Cooperative Association is the center of McLean's vital activities each year. The organization is comprised of the Senate, the Cabinet, the Representative body and the Inter-Club Council. These "middlemen" help to bring the students, faculty, and officers more closely together for beneficial understanding and effective activities.

As always, the most important part of the SCA's job was to raise money for bringing two foreign exchange students here next year. In order to achieve their goal they sponsored a "welcome" for the faculty, an orientation for new students, the SCA handbook, the Junior-Senior Game, the Student Directory, and a McLean Hat Sale. This year our student government initiated the "Highland Giver's Fund" and rewrote the SCA Constitution. They bought a Danish and a Japanese flag to represent our exchange students and gave a wild "Peppermint Party" Dance! These activities were accompanied by a "Superior" rating on a display and scrapbook at the 36th annual SCA Convention in Radford, Virginia.

Interest in promoting the school's standards and participation in projects and drives have helped to make the SCA an effective organization concerned with creating a closer tie between the students and the faculty.

The Senate Body of the SCA is comprised of eight members, each class having two elected representatives in the group. This body is small but effective in advancing the work of the SCA. Each member has worked toward the betterment of his class and has created a strong tie between his class and the student government.

Bill Hazelton, Virginia Beardsley, John Hodgson, Peggy Smith, Bill Kelly, Jim Hodgson, Suzy Hill.

The Representative Body of the Student Cooperative Association is composed of elected members from all homerooms. It is both the responsibility and duty of these representatives to inform their respective homerooms of the activities, goals, and problems which confront the SCA. The Representatives have taken part in helping to promote the successful functions which the SCA has sponsored this year.

The S.C.A. Cabinet, appointed by the president of the S.C.A., has proved highly successful this year. It sponsored a "Get Acquainted Dance" for the new students at the opening of school, was responsible for donating seven hundred and fifty dollars to three worthy charity organizations, and raised hundreds of dollars for the American Field Service through the profits of the Junior-Senior Game, the selling of the red McLean hats, and a soc hop. School spirit was boosted by the cabinet as it experienced a most rewarding year.

The Key Club, sponsored by the Fairfax Kiwanis Club, is one of the larger service clubs of McLean. Members are elected each year on the basis of grades, leadership abilities, character, and willingness to serve. There are two main goals of the Key Club—the betterment of its members and service to the school and community. This year the club conducted the Thanksgiving Drive and planted trees on the school grounds as well as sponsoring the annual Christmas Dance and campaigning for the Cerebral Palsy Fund.

Keyettes

The Keyette Club is an honorary service club whose members are chosen on the basis of character, leadership, and scholastic ability. The girls, from the sophomore, junior, and senior classes, seek to serve both the community and school.

Community projects included giving a Halloween party for orphans, visiting the Manassas Old Folks' Home, campaigning for the Cerebral Palsy Fund, and collecting food for the needy at Thanksgiving.

In the school, the Keyettes did such activities as sponsoring Clean-Up Day, polishing the school's trophies, buying a new American flag for the SCA, and co-sponsoring the Christmas formal and Maid and Butler Day.

This year saw the strengthening of the club's affiliation with the McLean Ki-Wives, by events such as the "charter party," and the growth of Keyette National, with its annual convention being held in Norfolk during the spring.

Character, leadership, scholarship, and service—these are the principals on which the W. T. Woodson Chapter of the National Honor Society is based and it is on these ideals that the members are chosen twice a year. The society aims to foster enthusiasm of scholastic achievement, stimulate the desire to render service, promote leadership, and encourage the development of character in high school students. This year the National Honor Society members acted as guides for College Night and sponsored the Senior Superlative Dance to honor those seniors with outstanding qualities. It also held a bake sale and contributed to the Foreign Exchange Program.

Junior Honor Society

The Mary M. Snead Chapter of the National Junior Honor Society is composed of members of the freshman and sophomore classes who meet its high standards for admission—good scholarship, character, leadership ability and school service. These members aid the school in many ways. This year they ushered at Back-to-School Night, kept time at forensics meets, and for the first time, entered a float in the Homecoming Parade.

The Quill and Scroll is an international honorary literary organization for those high school students interested in journalism. The Arne Sundland Chapter of the Quill and Scroll endeavors to maintain the highest possible standards of journalism. The members are chosen each year on the basis of scholarship and contributions to McLean publications.

Pep Club

The main purpose of the Pep Club is to promote school spirit at athletic events. This was done by new Pom-Pom sections and decorating of the goalposts at the football games. The bake sale, and the annual variety show, in which McLean students displayed their talents, were other club projects this year.

Editors at work??

Clan

This year's CLAN Staff has worked diligently in an endeavor to portray the academic and social life of McLean. Their friendly, cooperative attitude has made this tremendous task a most enjoyable experience. They hope the yearbook will, in the future, serve as a reminder of pleasant days during this school year.

As the Tartan is a symbol of the flair and creativity of the Scottish people, so is McLean's literary magazine, the TARTAN, a symbol of the flair and creativity of its student body. The TARTAN presents the literary and art achievements of the students while promoting good writing and encouraging high standards of ability. This year for the first time the TARTAN has published three issues instead of the usual two. It also held the annual writing contest to search for student talent.

In an attempt to keep the students well-informed about school events, the *Highlander* staff has been constantly on the move: getting sports news, S.C.A., departmental and curricular activities. The members of the staff deserve to be congratulated in earning nation-wide recognition and high ratings in interscholastic competitions. The many editorials spark their informative reports and the letters to the editor give the students and faculty an opportunity to express their views. Sponsored by Mrs. Carter, the staff has benefited the whole school in the publication of this monthly newspaper.

The Science Club of McLean High School is an organization dedicated to the promotion of interest in science and the encouragement of promising young scientists. Its meetings are of general interest as there are often lectures by guest speakers, or student papers on some area of science as well as student experiments. The club's main project is the organization of the annual Science Fair. The Science Club is affiliated with the Virginia Junior Academy of Science and is a charter member of the Future Scientists of America.

Astronomy Club

The Astronomy Club was created to further the interest in astronomy in this area and to provide opportunities for the observation of celestial objects and their movements.

At present, the club's special project is the construction of an observatory on the school grounds, which will house a ten inch reflector telescope. Mrs. Donaldson, the club's sponsor, hopes that the observatory will be completed within the next year.

At various times during the year, members of the Astronomy Club attend lectures at the National Capital Astronomers Society at the Washington Observatory.

Latin Club

The purpose of the Latin Club is to interest students in the study of Latin and the classics. This year the club sponsored the annual Latin Banquet. Through their various activities the "Latini Laeli" or "Happy Latins" gain a greater appreciation of the Latin language and culture. Although it is primarily a non-profit organization, any extra money is used to buy accessories for the Latin department.

The McLean High School Savings Plan was organized two years ago to encourage thrift and responsibility. Under the excellent guidance of our sponsor, Mr. Coppage, the Plan has increased in popularity in the school.

Bank Helpers

Gloria Thompson, Molly Bell, Joyce Maddox.

Guidance Helpers

Beyond a doubt, the busiest office in the school can be found in the Guidance Department. The many responsibilities which these girls assume are scheduling appointments with counselors, teachers, parents, and students, making telephone calls, typing, filing, and the countless numbers of other tasks that arise during each and every day.

Seated: Donna Drashpil, Diane Rosenthal, Beverley Martin, Carol Mancuso, Lynn Swindler. *Standing:* Joyce Kelly, Karin Dahlmen, Kathy Thornett, Regina Robinson. *Not Pictured:* Penny Nye, Kathie Wite, Barbara Bishop.

The girls who work in the office play a very important role in school affairs. They not only aid the students, but also, give invaluable help to our school secretaries.

Office Helpers

Carol Williams, Merrilee Catchins, Barbara Boldt, Lois Tahler, Edie Tysinger, Karen McPherson.

Intramural Board

The intramural board co-ordinates and manages intramural sports. Intramural sports are an integral part of the school activities because they give those who lack the time and ability for varsity sports an opportunity to participate in a competitive sport for enjoyment and fun. Each year they sponsor Play Day, which brings schools from all over the county to McLean.

First Row: Beverly Martin, Dana Crawford. Second Row: Peggy Wilkins, Martha Watts. Third Row: Jean Holt, Jannell Gernhofer, Diane Wood, Suzy Hill. Sponsors: Miss Breeding and Mrs. Lerg.

Store Room Helpers

The store room helpers are well known to the student body as well as to the faculty. Pencils, erasers, pens, and those all important blue books are sold daily. Credit for the efficiency of this group must be given to the women's physical education department. They are responsible for ordering supplies and keeping the books of this very busy group.

Elizabeth Chickering, Joie Young, Beverly Martin, Pat Wingert, Dana Crawford, Elaine Bannerman, Velda Warner.

One of the busiest places in the school at the beginning of the school year, and happily at the end of the year, is the book room. This important area of the school is responsible for the distribution and collection of the thousands of books used by the students of McLean High School. Luckily, with the help of Mrs. Wilhelm, the task of this group is greatly reduced.

Mr. Burks, Principal

When McLean opened its doors in 1955, Mr. Craighill S. Burks, with the help of his first faculty, began the long struggle of making the school the wonderful institution that it is today. These past seven years have proved that he is a capable, understanding leader in the school and the community. Mr. Burks' desire to continue to improve the educational opportunities of the young people of the McLean area keeps him ever working toward perfection.

Assistant Principal for Administration

To assist Mr. Burks with administrative duties, to prepare various academic reports, to supervise student transportation, and to help with faculty and student problems, are the duties of Mr. J. J. Lyons, Assistant Principal for Administration. The community is indebted to him for his part in making McLean an excellent school.

MR. LYONS

MRS. WILHELM

Assistant Principal for Instruction

Improving the academic standing of McLean is one of Mrs. J. G. Wilhelm's primary interests as she cheerfully performs her duties as Assistant Principal for Instruction. She helps with instructional problems, represents the faculty at county-level curriculum meetings, supervises distribution and collection of textbooks and instructional materials, and maintains a good working relationship among the members of the faculty.

No job is too small nor task too great for Miss Keenan.

Office

Through the untiring efforts of the office staff the student body and faculty have been greatly helped. They take care of the 101 little things that must be done to keep McLean on her feet and operating as efficiently as possible.

Greet the morning with a smile and an excuse.

The Guidance Department is concerned not only with the instruction of the student, but with his progress, problems, and future plans. Due to the fact that the counselors have taken the time to personally acquaint themselves with every member of the school, students are able to receive excellent individual attention.

English

With a keen interest and a desire to forge onward, McLean's English Department has created a new style and form in the instruction of students with the essentials and background of their heritage in the English language. The teaching staff has sought to go further than the exercises in grammar and memorizing of poems: students are now learning the why and wherefore, the theory of grammar and the history and evolution of English as a language and a part of culture.

Advanced programs of study such as Advanced Placement English for the Seniors and American Civilization for the Juniors have progressed rapidly and are presenting both a working knowledge and interest for scholars and an excellent preparation for later study in colleges and universities.

The English Department has delighted students this year with the presentation of Othello and has continued to strive toward greater expectations and higher standards. From Plato and Plutarch to Shakespeare, to Browning, to E. E. Cummings, it has been a wonderful course of study and one to remember upon which to build.

An elevating lecture!

And the theme of this Shakespearian play is "Sleep."

Mathematics

Mathematics has been called the "key to science," but actually it is more than that. It is the "key to living and thinking." The math course of study, established years ago at McLean, is geared to the purpose of making math a "key to open the door to thinking and living." This program offers courses in general programs of study: courses in higher and advanced math such as calculus, trigonometry, and solid geometry. Business math and general math are courses for everyday practical and useful purposes.

The Math Department has greatly advanced and widely broadened the field of study to suit the needs of everyone. Math is not only for the scholars, but is an essential part of our daily lives. With this idea in mind, the department strives not only to teach students to add $a + b$ or find the area of a square, but to think and reason problems arising each day.

Next year the curriculum will be advanced even further with the addition of a course in Math Analysis. Hats off to the Math Department.

Science

America has put herself on the threshold of space, and now it is to this generation that eyes are turning to carry out the dreams of our nation and mankind. The Science Department at McLean is just one of thousands throughout the nation, but we feel it is among the best in faculty, interest, and whole-hearted "get up and go."

Science at McLean has gone beyond the point of simple class experiments and the reading of books—it is a living organism, growing, multiplying and re-doubling itself like the microbes in biology. The staff is always ready to help and instruct those interested in science. To the general sciences, biology, chemistry, and physics. CBA chemistry and PSSC physics have been added. Although begun just last year, these courses have increased in importance and ability to help the talented and ardent scholars.

One need only look at McLean's annual science fair to see that the interest in science is growing in America and our school. To $E = mc^2$, Boyle's Law, and the genotypes and phenotypes, we say, "Grow and progress, and teach us about the world."

Let's try not to drop anything today fellows, one hole in the ceiling is enough.

Social Studies

Perhaps the widest field at McLean is the study of the world, its inhabitants, past and present, and the theories that tie us all together—Social Studies. Our Social Studies Department has branched out and greatly expanded in its coverage of this field and has found new courses of study for all classes from Freshman to Senior. World Civilization, American Civilization, Ancient and Medieval History, Government, Economics and Sociology provide a perspective for students which is unequaled.

At a time when Americans have so much to learn from the past about the future, McLean's Social Studies Department has risen to meet this need. History is not just a series of dates and events but a living picture of peoples and cultures. This "Big Picture" is important since it is from a working knowledge and not strict rote methods that citizens realize and meet the challenge of the world. All this is what the Social Studies Department recognizes and for what it strives.

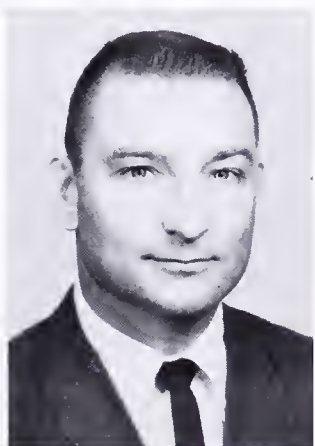

This must be the old wing.

Foreign Languages

Whether it's *parlez-vous francais*, *Latin dicisne*, *habla español* or *sprechen sie Deutsch*, McLean's Foreign Language Department is outstanding in its methods and results. Besides the elements of grammar, essential in every language course, the department provides the needed background in history, culture, traditions, and current events so necessary for the success of such a program.

The teaching of the modern languages, French, German, and Spanish have been greatly enhanced by the addition of the language lab. This lab gives students a chance to practice and improve their diction and fluency, and is an invaluable part of language education.

McLean's Latin teaching staff has proved that Latin is certainly not a "dead language." Latin scholars may participate in a full four year program of study. The number of students taking Latin is quite large and growing every year.

Fine Arts

The aesthetic and practical applications of art, drama, music, and oratory are a cultural addition to any well-rounded course of study. It is by the pursuit of these fields that one gains both appreciation and enjoyment in living.

The Art Department has been responsible for displays in the library of work and has helped out in the preparation of bulletin boards and sets for drama productions.

Under the skilled guidance of experts, the music and choral departments have won much praise and acclaim. Music is certainly an essential part of life and this department surpasses any, we believe, whether it may be concerts by the band, choral music in assemblies, a madrigal performance, or Mr. Touchdown at a football game. The spirit which this music brings forth is invaluable.

Dramatics and public speaking are good training for later life and pleasure for all concerned. The drama productions "Call Me Madam" and "Henry IV" have enlightened and pleased McLeanites and their guests have only been a continuation of our fine dramatic tradition.

Business

The Business Education Department offers its students unlimited opportunities to study in such fields as typing, shorthand, and office and business practices. Students enrolled in these courses are prepared to enter the hectic world of business confident and secure with the knowledge that they have received training second to none. Many business students attend classes in the morning and then, in the afternoon use their acquired knowledge and skills to work at jobs obtained for them by the school. These students are excellent examples of the unequalled instruction provided by this department.

A regular program of business education is also offered. This curriculum includes typing, shorthand, bookkeeping, and, new this year, business English. Those enrolled in this course include not only individuals interested in business as a career, but also many who find typing and shorthand an aid in other studies.

Domestic and Industrial Arts

An excellent opportunity is offered to those who enroll in Industrial Arts. Not only do they learn the theory needed for various jobs but they also have a chance to work and create with tools. This preliminary training provides a sound basis for future study in fields such as mechanical or civil engineering. At the same time, it results in finished products by each student—for example, model homes built from original floor plans.

Girls interested in learning something of the useful art of homemaking may do so in the study of Home Economics. This course provides each girl with the skills and know-how to run a home with efficiency. Included in these domestic arts are sewing, cooking, child care and good-grooming.

Health and Physical Education

Under the present system at McLean, each student is required to take three years of health and physical education. The sports offered are many and varied, including golf, tumbling, basketball, hockey, softball, and a unique program of physical fitness. In addition to class-day sports, intramural activities are carried on after school for those who wish to participate in competitive, individual and team, games. This complete and well-rounded schedule produces a lively and active student body.

Through the health program, the student learns the basic fundamentals and rules of sports and is acquainted with the important part that health plays in our daily lives. For the Sophomores, driver education comprises a six-week period of the health courses. In driver education, the student is taught the "golden rules of the road" and the responsibilities he assumes when he himself is a driver.

Library

The McLean High library is an invaluable place for the students to work, learn, and study. Each year the library has grown in popularity and in its usefulness to the students and teachers alike. It is also a gathering place for the teachers on Monday afternoon, for meetings, and various other activities during the year. McLean owes a debt of gratitude to the librarians and all those who have contributed to its success and growth.
